Accountant to Developer

Languages, Frameworks & Skills

Ruby, Javascript, HTML5, CSS3

Rails, Sinatra, JQuery, Bootstrap

Git, Sublime Text, SQL, Google Dev Tools, RSpec

Projects

Created a web app with Ruby/Sinatra where users can create, join, and manage charity projects, a bit like kickstarter for charities.

Created a dating app with Ruby/Sinatra where users are presented with their match and a prearranged date night.

Created numerous small applications, including my own variation of Rotten Tomatoes using Ruby on Rails, utilizing MVC Frameworks.

Implemented Instagram API to build an app that searches by your favorite hash tag.
